About Al Barakh Organics

Founded in 2024 by Mr. Sohaib Ahmed Khatti, Al Barakh Organics provides premium-quality vermicompost to farmers, growers, B2B, exporters, and retailers across Pakistan. Our vision is to revive Pakistan's declining agricultural soils and empower farming communities.

1. Premium-Quality Vermicompost (Core Product)

- Description: Premium-quality organic fertilizer produced through vermicomposting, enriched with natural nutrients and organic matter to improve soil health, enhance plant growth, and support sustainable agriculture.
- Available Bag Sizes: 40 KG Bags (Commercial Field Size) & 5 KG Bags (Gardening & Nurseries).
- Key Benefits: 100% pure organic matter, enhances water retention, rich in humic & fulvic acids, suppresses root diseases, and safe for all crops without burning roots.

2. Red Wiggler Worms (*Eisenia fetida*)

- Description: Efficient composting earthworms that convert organic waste into nutrient-rich vermicompost.
- Availability: 1 KG Active Starter Colonies & Commercial Breeder Lots.
- Applications: On-farm composting beds, livestock manure valorization, and rooftop compost units.

Operations & "Zaraat Kach'heri" Platform

- Tando Ghulam Ali Facility (Main Branch): 200+ active vermicomposting beds & research setup.
- Hyderabad Branch Facility: 20+ active beds and regional dispatch center.
- "Zaraat Kach'heri": Community dialogue platform connecting and educating farmers across Pakistan.
- Future Pipeline: Organic Vermiwash (Liquid Gold) & Agricultural Activated Biochar.
