

AL BARAKH ORGANICS

“Zaraat Kach’heri” — Training Programme Syllabus

Over 100+ Sessions Conducted & 500+ Farmers Empowered Across Pakistan

12 Core Training Topics Covered in Zaraat Kach’heri:

01. Vermicomposting & Organic Fertilizers — Bed setup, temperature, moisture and harvesting.
02. Soil Health & Soil Restoration — Rebuilding depleted microbiology and reversing salinity.
03. Modern & Sustainable Agriculture — Low-cost inputs and high-efficiency farm systems.
04. Organic Farming Practices — Non-chemical pest control and biological crop nutrition.
05. Composting & Organic Waste Management — Turning farm residues and cattle manure into wealth.
06. Integrated Nutrient Management — Optimizing biological and organic fertilizer combinations.
07. Vermiwash & Biochar — Production and foliar spray techniques for flower and fruit retention.
08. Farm Waste to Farm Wealth — Commercial economics of on-farm composting.
09. Climate-Smart Agriculture — Resilient practices against extreme summer heatwaves and drought.
10. Women & Youth in Agriculture — Fostering female leadership, training, and entrepreneurship.
11. Entrepreneurship in Agriculture — Packaging, branding, and commercial organic marketing.
12. Practical Farm Demonstrations — Live hands-on work on active 200+ vermicomposting beds.

Locations & Who Can Request Training:

- Active Hubs: Tando Ghulam Ali (Main Facility - 200+ Beds) and Hyderabad Branch.
- On-Demand Training: Delivered on-site at commercial farms and educational institutions across Pakistan.
- Eligible Participants: Smallholders, commercial growers, schools, colleges, and agriculture universities.
